They grow up straight, smooth and much faster and quicker than when planted without cutting back. We cut back all seedlings to crown before transplanting.

TO THE TRADE

This list covers as nearly as possible the items which we are yet in position to furnish, most of them in quantities, we believe, sufficient to meet the requirements for the remainder of the Spring Orders.

This will be the last Trade List of the present season and we hope that you will anticipate your needs and send us your orders just as soon as possible so that we may be able to serve you satisfactorily.

We have been favored with a splendid business this season and take this opportunity to thank our friends and customers for their favors and hope that our dealings with each and every one has been mutually pleasant and profitable.

We are now working and looking forward to the coming season when, as usual, we hope to serve you better—and more often.
